

## Advance Vital Youth & Teen Programming

**Hire a Youth Bike Coordinator and continue advancing programs for at-risk youth and teens - expense (2 years) - \$120,000**

We are committed to investing in the future generation of cyclists and those who are new to cycling. From 2021 to 2023, we've enhanced teen programming and are now poised to take a crucial step forward by adding another staff member.

With your support, we can meet the growing needs of at-risk and minority youth and teens, ensuring lasting impact and accessibility for all.

Currently, we are unable to fulfill requests from schools and other nonprofits, making it imperative to hire additional staff to meet these demands. Without expanding our staff, we cannot effectively grow and sustain programs designed for at-risk and minority populations.

- Empower the next generation of cyclists and those new to biking, especially focusing on teens and kids.
- Meet demand for kids bikes and education
- Current resources fall short, emphasizing the urgency to hire additional staff.

All contributions to the Iowa City Bike Library are tax deductible to the fullest extent allowed by law.

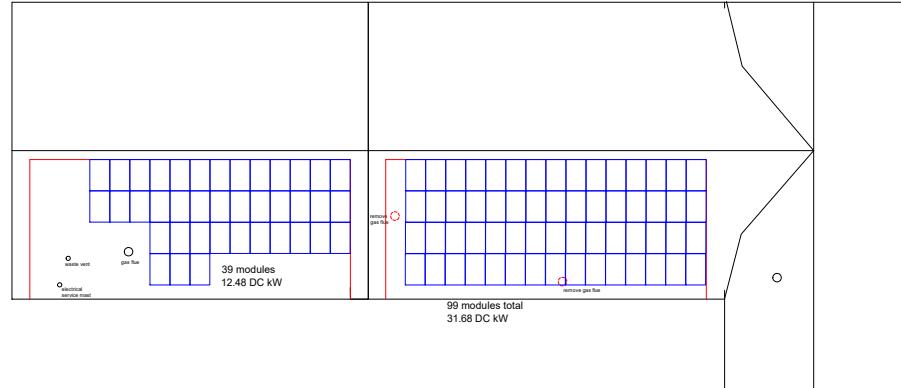

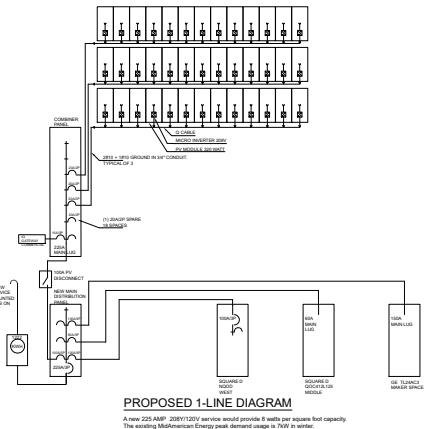

## Build Climate Change Resiliency

We are retrofitting our 7,000 square foot building to be a community showcase for energy efficiency. We could save up to \$6,000 annually by making efficiency upgrades to our building, full electrification, and generating solar energy.

- Heat pump mini splits: \$35,000
- Replace leaky garage door with wall/window: \$15,000
- 100 solar panels and hardware: \$40,655
- Electrical work and upgrades for 400A and solar: \$37,000
- New singles: \$40,000

Get as close to NET ZERO carbon emissions as possible: \$167,655

PLACEMENT OF SOLAR PANELS

## Create Educational Outdoor Community Greenspace

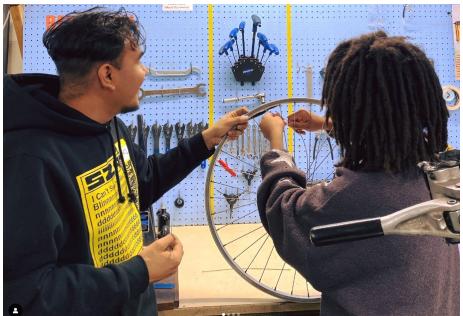

**Campaign Total  
\$1,000,000**

**Initiative 4  
\$300,000**

Build an outdoor expansion of our education-focused shop, complete with more repair stands and a bike skills test ride loop. Repave the front entrance and create a welcoming donation drop-off zone for cars.

- **West entrance covered bike parking and parking lot - supported by City staff, we will be applying for a special exception: \$100,000**
- **Educational skills loop for test riding and skills development, and seating within greenspace: \$100,000**
- **Bike wash station, sculpture garden, and stage for performances: \$100,000**

Our goal is to raise up to \$300,000 for an education community gathering space. This will serve as a third place—a free place where people can come together, socialize, and build a sense of community outside of their home and workplace. The project will beautify the streetscape, and increase neighborhood vitality.

COVERD BIKE PARKING, DONATION DROP-OFF, PRACTICE LOOP & COMMUNITY GREENSPACE

## Stabilize Our Shop's Future

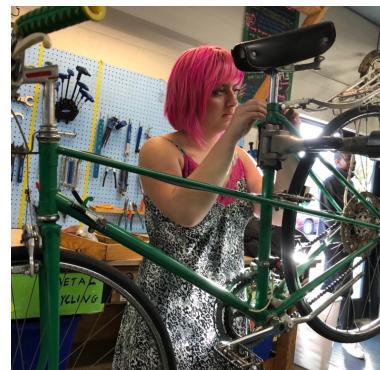

The foundation of our campaign is the retirement of the debt tied to our mortgage, freeing up funds to help hire more staff and produce more programming.

Pay off mortgage and save the organization over \$300,000 in interest - \$312,498

- **January of 2021: acquired 7,000 square foot building at 1222 South Gilbert Court**
- **Purchase price: \$399,000**
- **85% loan with Hills Bank**
- **Five year interest rate at 3.5%**

Our goal is to pay off our loan with Hills Bank on or before the maturity date of February 5th, 2026 and instead invest money in the community.
